Dear Village of East Dundee Website Selection Committee

Thank you for considering Revize as your web development partner. For nearly two decades, Revize has been a leader in providing high quality, government-compliant web solutions. A myriad of industry awards and hundreds of satisfied clients stand as testament to the quality and value of our work.

Every member of the Revize team understands that your website is more than a website. It's a valuable resource that can help you build a better community.

Visitors are drawn to websites that are appealing yet functional, user friendly with a plethora of services, and accessible on a wide range of devices. A Revize website will allow your residents and businesses to easily fill out and submit documents, review and pay bills and taxes, perform searches to answer frequently asked questions and perform a suite of other tasks that would otherwise require staff assistance. What's more, a Revize website will enable you to increase staff productivity and decrease costs by reducing off-line departmental operations.

Some of our great clients in include:

- City of Largo, FL [www.largo.com](http://www.largo.com)
- New Bern, NC [www.newbern-nc.org](http://www.newbern-nc.org)
- City of Arcadia, CA [www.arcadiaca.gov](http://www.arcadiaca.gov)
- City of St. Petersburg, FL [www.stpete.org](http://www.stpete.org)
- City of Des Moines, IA [www.dsm.city](http://www.dsm.city)
- And Many More!

We will work closely with you to design and develop a dynamic, functional and easy to navigate website that will perfectly fit your community. Then we empower you to control your digital presence with the industry's best administrative management applications. Revize training ensures that your team has the skills needed to expertly update and manage website content and delivery.

## Government clients select Revize because we can help them

- Effectively engage residents.
  - Enhance their web presence and build an online communications center.
  - Empower non-technical web content editors and administrators to easily execute changes.
  - Implement a scalable solution that allows them to affordably grow their web presence for the long term.
- 

“Revize Websites build engagement  
with your constituents.”

---

We have worked hard to establish a reputation for creating online community websites that engage, inform, and increase participation of your community. With our help, your community’s website can serve your residents better, inspire them more, and get them actively involved in your government.

Please contact me if you have any questions at all.

Sincerely,

*Thomas J. Jean*

“Revize is a beehive of creative thinkers who are interested in putting your organization’s communication objectives front and center. They’re extremely easy to work with and they’re engaged every step of the way. Before, during and after Revize did our site build, they were super responsive any time we had questions or concerns. & they’re always open to new ideas too. We couldn’t be happier!”

# Executive Summary

Thank you for considering Revize Software Systems for your new website project. We understand the importance of this undertaking and know how motivated your government/community is to selecting the right vendor; one who will work with you through all the steps required to build the perfect website featuring a plethora of high quality online services that your constituents will want to use regularly. In more than two decades of working with government leaders, as well as through nationwide surveys, we have learned that the key to choosing a website vendor is finding the right balance between the total cost of the solution and the quality of the design, online apps and user functionality. In simpler terms, you need a solution that works for you and serves your constituents.

## About Us

With more than 1,500 government clients nationwide, Revize Software Systems is one of the industry's leading providers. We credit our rapid growth to our 20-year track record of building award-winning government websites and content management systems. When you work with Revize, you're not just a client, you become part of the Revize family and will receive the service and support you need and expect! We are among the most highly respected government website experts in the United States and we proudly stand by our work.

## Our Innovative Responsive Web Design (RWD) and Web Apps

Revize has been a pioneer in implementing the latest trends in design by using Responsive Web Design (RWD). This technology ensures that site visitors have an optimal viewing experience — easy reading and navigation with a minimum of resizing, panning, and scrolling — across a wide range of devices, from desktop monitors to mobile phones. RWD provides flexible and fluid website layouts that adapt to almost any screen. When you implement a dynamic new website powered by Revize, you will not only get an outstanding look, layout and navigation, but you also receive 24/7 access to our Government Communication Center for residents, business and visitors.

## Here you will find the communication tools you need such as

- Public Service Request App
- Calendar of Events
- E-Notification Modules
- On-Line Payment Portal
- Facilities Reservations
- News Center with Facebook/Twitter Integration
- Emergency Alerts
- Online Forms / Survey Tools
- E-Newsletter Applications
- Job Posting and Tracking Module
- Public Records Request Track

## Our Award-Winning Government CMS

Revize is renowned as a leader in providing practical, high-value, easy to use content management software Government CMS. This simple-to-use yet powerful solution enables clients to manage their online presence with high functionality and style. With applications such as an online document center, public service request app, public records request tracker, agendas and minutes, frequently asked questions and more, Revize ensures that our clients have the tools they need to make information and services available for website users at the click of a mouse.

## Quick Deployment, Personalized Training and Support

Revize addresses time concerns by completing websites in considerably less time than our competitors. And because our software is so easy to use, we are also able to effectively train our clients in less than half the time it takes our competitors. Our training program is customized based on each client's needs, and we provide hands on training the way you want it - either onsite or off site through web conferencing tools. We pride ourselves on the skills of our support staff, who are responsive, knowledgeable and helpful. Our online support portal is available 24X7X365 for issue tracking and management. We also provide phone and email support during regular business hours.

### Did you know?

Our technical support staff are trained developers. When you call for tech support, you'll be speaking to staff with direct knowledge of development!

# Company Profile

<b>FOUNDED</b>	<b>HEADQUARTERS</b>	<b>PHONE</b>	<b>WEB SITE</b>
1995	150 Kirts Blvd. Troy, MI 48084	248-269-9263	<a href="http://www.revize.com">www.revize.com</a>

Revize Software Systems was founded in June, 1995 as a "new media" development company specializing in the creation of interactive web design, multimedia content delivered on CD-ROM, and video production. Since then, Revize has made an unsurpassed name for itself in the web/internet industry as THE master of government website design, which remains our specialty. We now boast more than 1200 clients in North America and have created acclaimed website designs for hundreds of municipalities and counties, as well as government departments and agencies. In September, 1996 as the Internet was becoming a world-wide reality, Revize began developing a Web Content Management System (CMS) for the government market to enable non-technical contributors to quickly and easily update content on their websites. The result was the creation of our state-of-the-art Revize Government CMS. Our mission has always been to enhance the communications of government organizations nationwide with their varied and valued audiences. This is based on our vision statement, which reads:

---

“The empowerment of people through simplified information management technologies.”

---

Focused exclusively on creative web design, government web apps and content management technologies, Revize continues to invest in its technology, continually adding new capabilities and features that manifest our vision. While many

municipalities choose Revize to develop and cost-effectively manage their website content, clients also use Revize as an information-sharing platform. Our suite of Revize Government web-based solutions has proven valuable as a powerful technology that empowers clients to build and maintain sophisticated web sites, all while using the Internet and internal Intranets/Extranets to acquire, analyze, process, summarize and share information – ensuring that the right people always have the right information at the right time.

---

“We are proud of our award winning web designs, technologies, continued innovations to build government centric modules and apps, web content management, training and support capabilities. We are especially proud of being recognized as one of the industry’s top government website experts and innovators. We are committed to pursuing the continued evolution of all our services to provide increased value to our government clients.”

---

**Did you know?**

Revize has won national awards for our websites!

# Government Project Experience

## The City of New Bern, North Carolina

[www.newbernnnc.gov](http://www.newbernnnc.gov)

## Details:

New Bern, North Carolina wanted a design unlike any City out there. With this design we pushed the limit of what people think when they see a City website. We integrated a drone video that plays on the full width homepage. In addition, this site features more scrolling than you may notice on more traditional websites. That is a good thing! Users are now, more than ever, viewing websites on their hand-held devices. Some estimates say this is as high as 60% of all internet usage! With more scrolling we are able to give the user a lot of information, without having to squeeze it into such a small space. We use images, icons, and interactive features to create an experience for the user. This type of design also allows us to extend the City's brand in a way that is unmatched in the industry!

## Tipton County, Tennessee

[www.tiptonco.com](http://www.tiptonco.com)

### Details:

Tipton County is located on the Mississippi River north of Memphis and is one of the fastest growing counties in the state. Because of this fact, the website needed to refocus its attention. In addition to resident services, this website has a focus on economic development. To achieve this, we started off by integrating a drone video. That video instantly showcases the growth in industry that Tipton is experiencing. As you scroll down the website, this business-friendly atmosphere is intertwined with resident engagement features. Each department has their own icon that is used to identify them uniquely. The interior pages have distinctive features that make them stand out as if they were stand-alone websites. With its service for residents and its appeal to the business community, this is the next generation of government websites.

# The Village of Glencoe, Illinois

[www.villageofglencoe.org](http://www.villageofglencoe.org)

## Details:

The Village of Glencoe is beautiful community on the shores of Lake Michigan just north of Chicago. This website brings together an amazing design with a full suite of web apps to engage Village residents. Smooth transitions from the home page to interior pages of this website allow users to find exactly what they are looking for easily. The Revize Public Service Request App, Village Manager’s Blog, fillable online form database, and a high traffic featured news and headlines area round out this website!

# The City of St. Petersburg, Florida

[www.stpete.org](http://www.stpete.org)

## Details:

As Florida's 5<sup>th</sup> largest, St. Petersburg is an iconic City with something to offer everyone. Because St. Pete is a longtime Revize client, their team worked very closely with ours and actually provided their own design concepts. We did the integration/pre-launch work and their staff was with us every step of the way. Inner pages are flexible to allow departments to have dedicated pages with a cohesive feel across all pages. Social media feeds from Instagram, Flickr, Facebook, Twitter, and YouTube all on the homepage! St. Petersburg also uses the Revize API to develop their own templates. This website is an elite representation of the power and beauty of the Revize process.

## City of Des Moines, Iowa

[www.dsm.city](http://www.dsm.city)

### Details:

The City of Des Moines, Iowa came to Revize for a website that was completely different. Coming from an internally developed site, they wanted to work with a vendor that could lead them to a new way of interacting with their users. Page layouts were created to allow unique interaction with the City. This included board listings, Q&As, interactive park directories, plain language, and a resident focused navigation. We also incorporated some of their internal databases and features that had been built internally. This site improves the online experience for residents, business owners, and visitors!

## City of Largo, Florida

[www.largo.com](http://www.largo.com)

### Details:

Largo, Florida wanted a website like no other. Through a collaboration between the city marketing team and Revize, we were able to create this award winning website. Each page in this website was designed to uniquely fit the needs of the community. We also built unique designs for the city parks, library, and theater. The navigation within this site is built based on services rather than department silos. Overall this website brings together an amazing mix of design expertise and functional clarity to create a great user experience!

# The City of Troy, Michigan

[www.troymi.gov](http://www.troymi.gov)

## Details:

The City of Troy wanted a website to increase ease of communication to all of their audiences. In addition, the city has been experiencing an economic resurgence particularly in the technology sector. In fact, Revize headquarters are in the City of Troy! This project included custom designs for The City, Library, and Recreation Department. Integration with the City's existing 3<sup>rd</sup> party software was a major linchpin of this project. Included is a live-searchable "How Do I" section that narrows down results as the user is typing. This allows any user to easily find what they are looking for regardless of which department it exists under.

## The City of Burlingame, California

### Details:

The City of Burlingame came to Revize after a previous website redevelopment project was stalled. We were able to get their project started quickly and live within the proposed timeframe. In fact, it was three websites. One for the City, one for the Parks and Recreation Department, and one for the Library. Sites include specialized page types built specifically for the needs of each department.

## Hosting Service

Revize has partnered with Amazon Web Services (AWS) and Google Cloud Service Platform (GCP) for it's LIVE WEB server hosting infrastructure needs. Both AWS and GCP are industry leaders in high availability cloud server architecture, both server farm infrastructure is highly secured, scalable and redundant for 24/7/365 availability. Snapshot/Mirror Image backups of all of our cloud servers guarantees

100% data protection and recovery in case of any disaster. Also, Revize has dedicated CMS servers in two state-of-the-art physical data centers located in Chicago and Detroit. Onsite/Offsite data backups of all of our dedicated servers are scheduled nightly with R1Soft backup service. Additionally, Revize utilizes multiple Tier 1 bandwidth providers such as Level 3, Wiltel, and Cogent for redundancy and continuous connectivity. These procedures provide our clients with up to 500Mbps of fast fiber optic up-stream connectivity.

Revize hosts your web sites and web applications on redundant (3 TB Hard Drive, 3.2 GHz CPU and 32 GB RAM) servers in order to provide enhanced performance and reliability. The Revize technology architecture physically separates the CMS from the website in order to provide another layer of redundancy/security. With this model, we keep an up-to-the-minute exact duplicate of your website in the event your site must be restored. Revize support staff will simply republish your site within a guaranteed two hours (as opposed to several hours or days time frame our competitors offer).

Revize will host both your Extranet and Intranet; your Intranet is secure and only accessible by authorized users through a login system.

There are no special software requirements to run a Revize hosted website and CMS solution. We make it all very simple. All you need is an internet connection and a browser. We also provide complete maintenance of your website, which includes but is not limited to: OS patches, intrusion prevention, antivirus, and software upgrades.

## Security

Revize takes website security very seriously and we provide our clients with the very best website protection protocols. Our data centers are located on secure premises equipped with card-reader access, security cameras and guards on duty 24/7 to ensure the physical protection from unauthorized entry.

Our web and network administrators monitor network activity 24-hours-a-day to ensure system integrity and protection against threats such as Denial of Service (DoS) attacks that could corrupt your website or block user access. Maintaining the secure configuration of our web servers is managed through application of appropriate patches and upgrades, security testing, vulnerability scans, monitoring of logs, and backups of data and OS. Host-based firewalls to protect CMS servers from unauthorized access.

## Application Security Authentication

- **Role-Based Security:** Role-based authentication to add individual user accounts and assign them system roles like Editor, Developer, Administrator, Workflow Approvers, etc., or department roles and empower the department to assign specific roles to users.
- **Permission-Based Security:** Ability to set up Content Owners/Editors and restrict which site pages they are authorized to update
  - **Global & Department Workflow Management:** Create workflow management and approval processes where authorized department personnel become approvers

### Did you know?

Revize will host your website and CMS in at least two completely separate geographic locations!

**Terms:**

1. Payments: All Invoices are due upon receipt. Work begins upon receiving initial payment.
2. Revize requires a check for \$4,167.00 on 7/15/2020 to complete this project.
3. Additional content migration, if requested, is available for \$3 per web page or document.
4. Additional bandwidth is available at \$360 per year for each additional 50GB per month.
5. Additional website storage is available at \$1,000 per year for each additional 5GB website storage.
6. This agreement is the only legal document governing this sale & Proper jurisdiction and venue for any legal action or dispute relating to this Agreement shall be the State of Michigan..
7. Both parties must agree in writing to any changes or additions to this Sales Agreement.
8. CLIENT understands that project completion date is highly dependent on their timely communication with Revize. CLIENT also agrees and understands that;
  - a. The primary communication tool for this project and future tech support is the Revize customer portal found at <https://support.revize.com>.
  - b. During the project, CLIENT will respond to Revize inquiries within 48 hours of the request to avoid any delay in the project timeline.
  - c. CLIENT understands that project timelines will be delayed if they do not respond to Revize inquiries in a timely manner.
9. Revize will provide a free redesign of the website in year 4 of the agreement. This assumes the City agrees to 4 consecutive years of annual software subscription, tech support, CMS updates, and hosting.
10. CLIENT owns design, content, and will receive periodic updates to the CMS for the life of the contract.
11. Unless otherwise agreed, Revize does not migrate irrelevant records, calendar events, news items, bid results, low quality images, or data that can reasonably be considered non-conforming to new website layout.
12. Storage is limited only to relevant website data. Unreasonably large folders of documents or images are not permitted. Examples include, but are not limited to, plat/property maps, tax records, GIS data, etc.
13. After content migration, CLIENT is responsible for any additional content cleanup. This includes, but is not limited to, resizing photos, reformatting text, replacing photos/icons, consolidating unwanted content, adding future calendar events, and general prep of the site before go live. CLIENT will also have the ability to add new photos, content, and pages.

## Enterprise Revize CMS License

As part of this agreement Revize Software Systems, LLC. will provide to the CLIENT a full Enterprise Revize CMS Software license. This software is a proprietary software built and maintained by Revize Software Systems LLC. and is intended to allow for the CLIENT to easily update the content of their website. CLIENT agrees that this license will only be used to maintain the websites included in this agreement. Sharing of the content management system, by the CLIENT, with other entities not identified in this agreement is prohibited.

Revize will maintain, update, and host the Revize CMS during the contract period. In the event that the contract is terminated, for any reason, Revize will provide the latest version of the Revize CMS to the CLIENT. This system will then have the ability to be hosted and used by the CLIENT as long as they wish. Revize will provide reasonable support in transferring the CMS system to the CLIENT's decided upon hosting architecture.

### Products CLIENT Owns Include:
